4 **Mental Health Services Directive:**
5

- 6 • Mr. Harriman noted that the Planning Council and the grantee are
7 discussing the possibility of moving the mental health services
8 provided by syringe exchange programs to the supportive counseling
9 and family stabilization services (SCFSS) category. Harm reduction
10 organizations providing mental health services do not provide clients
11 with a formal DSM-V diagnosis – and DSM-V diagnoses are not required
12 for SCFSS.
- 13 • IOC Committee members engaged in intensive examination of the draft
14 mental health services directive. Two versions of the directive will be
15 provided for the next meeting: 1) one version (short form) showing all
16 the track changes and 2) one version (long form) showing all track
17 changes accepted and with each of the four columns of the directive on
18 a separate page for greater legibility.
