## Introduction

The directory is for service and health care providers seeking support for people living with HIV (PLWH) as well as for PLWH seeking services for themselves. The directory lists RWPA programs by service category and provides location, both primary and secondary contacts, and transit information. The programs listed here receive Ryan White Part A-funding to provide:

- Food and nutrition services
- The Positive Life Workshop (health education and risk reduction services)
- Harm reduction services
- Legal services
- Mental health services
- Case management and care coordination services
- Supportive counseling services
- Housing services
- Emergency financial services
- Oral Health Care Services
- Medical transportation (in Westchester, Putnam, and Rockland counties only)

To be eligible for most Ryan White Part-A funded services listed here, prospective clients must:

- Be HIV+;
- Have a total household income at 500% of the federal poverty level (FPL), this is the same as the income eligibility guidelines for the New York State AIDS Drug Assistance Program (ADAP);
- Reside in the New York Eligible Metropolitan Areas (NY EMA) which includes the five boroughs of New York City and the adjacent Tri-County region of Westchester, Rockland, and Putnam counties.

To make a referral, please contact the program directly using the information provided in the directory (call agency before visiting or directing clients to the program). When making a referral, service providers may find it useful to talk to clients about executing a release of information form authorizing the sharing of confidential health and HIV-related information with another service provider in order to coordinate care (for additional information on healthcare forms: <https://www.health.ny.gov/diseases/aids/providers/forms/informedconsent.htm>).

If you have questions about the directory, contact Jennifer Carmona, Director of Quality Management and Technical Assistance at 917-620-7752 (mobile) or [jcarmona@health.nyc.gov](mailto:jcarmona@health.nyc.gov).

Sincerely,

The Quality Management and Technical Assistance  
teamCare and Treatment Program  
Bureau of HIV  
New York City Department of Health and Mental Hygiene

# New York City Services for People Living with HIV

## Food & Nutrition Services

Food and nutrition programs provide food and meals as well as services designed to build clients' knowledge, skills, and independence around healthy eating and nutrition. Services include home-delivered meals, food pantries, congregate meals, vouchers to purchase food, and nutritional services, like supplements and counselling, that are delivered by a registered dietitian. To be eligible for home-delivered meals, clients must have medical documentation substantiating that they are unable to shop or prepare meals for themselves. Please be sure to call agency before visiting or directing clients to the program.

Languages available: English, Spanish, Russian

Website: [www.projecthospitality.org](http://www.projecthospitality.org)

Nearest Transit Stop:

Staten Island Railroad - Stapleton

# The Positive Life Workshop

The Positive Life Workshop (TPLW) is a 20-hour health education intervention for PLWH and led by PLWH. The workshop empowers participants to improve their health through educational presentations, small group work, activities, and social support. TPLW is presented over seven sessions which cover topics, such as engagement in health care, treatment adherence, social health, staying safe, HIV disclosure, and mental health. Those who are dealing with a new diagnosis, struggling with retention or treatment adherence, or those who are interested in learning more about managing HIV may find TPLW especially helpful. Please be sure to call agency before visiting or directing clients to the program.

## Brooklyn

### The Family Center

Location:

493 Nostrand Avenue  
Brooklyn, NY 11216

Nearest Transit Stop:  
23 St. Train Station (Train F & M or N, Q, aR & W)

pi

# Harm Reduction Services

The goals of the harm reduction program are to provide accessible harm reduction and substance use services, reduce the negative impact of alcohol and drug use, promote access to and maintenance in HIV primary care, and to improve adherence to treatment for HIV. Harm Reduction services are provided by credentialed counselors who address substance use problems through a range of strategies, including safer use, managed use, and abstinence while also recognizing and meeting the various psychosocial needs of PLWH. Harm Reduction providers who are funded by the RWPA program also employ patient navigators to help clients access health and supportive services, maintain engagement in services, and support retention in care and adherence to treatment. Please be sure to call agency before visiting or directing clients to the program.

# Legal Services

Legal advocacy services, offered by skilled lawyers and paralegals, can assist PLWH in obtaining and maintaining cash assistance, acquiring Supplemental Nutrition Assistance Program (SNAP) benefits, Medicaid, ADAP, and other health-related assistance. In addition, legal services can assist in addressing housing, permanency planning, end-of-life planning, and a range of other legal concerns related to their HIV status. Please be sure to call agency before visiting or directing clients to the program.

# Mental Health Services

Mental health services provide psychiatric treatment and counseling services to those with a diagnosed mental illness. Services are delivered following a detailed treatment plan by a licensed or New York State authorized mental health professional (e.g. psychiatrists, psychologists, and licensed clinical social workers). Mental Health Services providers who are funded by the RWPA program also employ patient navigators to help clients access health and supportive services, maintain engagement in services and support retention in care and adherence to treatment. Please be sure to call agency before visiting or directing clients to the program.

# General (Non-Medical) Case Management

General (i.e. non-medical) case management services provide advice and assistance to clients in obtaining medical, social, community, legal, financial, and other needed services. This is a low-threshold intervention that provides support for individuals living with HIV who do not need intensive, on-going assistance in managing their care and treatment, but still require help in identifying and accessing available resources. Please be sure to call agency before visiting or directing clients to the program.

# Care Coordination Services

Care Coordination is a medical case management program that supports retention in care by offering PLWH home- and community-based patient navigation services, coordinated medical and social services, counseling and coaching in adherence to treatment, directly observed therapy (DOT) for treatment, and health education to build the skills and knowledge needed to maintain stable health. Care Coordination programs are associated with clinics. In order to enroll in a Care Coordination program, PLWH have to be—or become—patients of the clinic with which the program is associated. Care coordination services are intended for those who have demonstrable challenges to engagement in care, retention in care and adherence to treatment, the newly diagnosed or those with co-occurring conditions who may benefit from help coordinating care. This includes those who have not achieved viral load suppression, have been out of care or new to care, are new to antiretroviral treatment, are co-infected with Hepatitis C, or are pregnant. Call agency before visiting or directing clients to the program.

Richmond University Medical Center

Sun River Health- 57 Bay Street Location

# Supportive Counseling Services

Supportive Counseling programs provide an array of counseling services to help PLWH cope with their diagnosis and psychosocial stressors. Providers have the flexibility to address barriers in care by utilizing a variety of strategies. Services include individual, group and family counseling, caregiver support, pastoral care, and bereavement counseling. Counselors may also refer clients to other health and support services and engage community health workers to facilitate access to services. Please be sure to call agency before visiting or directing clients to the program.

# Short-term Housing

Short-term housing services provide housing units and supportive services in congregate and scatter-site settings to chronically homeless, homeless, or unstably housed PLWH. Transitional short-term housing assistance is provided with the intention of moving clients to permanent housing within two years of program enrollment. Services include advocacy, individual and group supportive counseling, life skills training, and referrals. Please be sure to call agency before visiting or directing clients to the program.

# Housing Placement Assistance

Housing placement assistance programs are for PLWH and their families who are chronically homeless, homeless, unstably housed, or at-risk for becoming homeless, with particular focus on those who are formerly incarcerated, diagnosed with a mental illness, have a history or active substance use, and residents of emergency Single Room Occupancy (SRO) facilities in New York City. Services provided include apartment inspections, permanent housing placements, advocacy, case conferences, home visits and referrals. Please be sure to call agency before visiting or directing clients to the program.

# Short-term Rental Assistance

Short-term rental assistance programs provide financial assistance on behalf of PLWH in the form of rental payments made directly to landlords in order to secure or maintain stable housing. Short-term rental assistance services are only available to PLWH who are homeless or at-risk of homelessness and who meet the medical and financial eligibility criteria for the HIV/AIDS Services Administration (HASA) program but who are otherwise not eligible due to administrative reasons. Services include financial counseling, rental assistance eligibility verification, apartment inspections and referrals. Please be sure to call agency before visiting or directing clients to the program.

# Services for People Living with HIV in Westchester, Rockland, and Putnam Counties

## Food and Nutrition Services

Food and Nutrition programs provide food and food vouchers as well as services designed to build clients' knowledge, skills, and independence around healthy eating and nutrition. Services include food pantries, vouchers to purchase food, and nutritional services (like supplements and counselling) that are delivered by a registered dietitian. Please be sure to call agency before visiting or directing clients to the program.

# Medical Case Management

Medical case management programs support retention in care by offering PLWH home and field-based patient navigation services, coordinated medical and social services, counseling, and coaching in adherence to treatment, daily observed therapy (DOT) for treatment, and health education to build the skills and knowledge needed to maintain stable health. In order to enroll in a medical case management program, PLWH have to be assessed for eligibility. Medical case management services are intended for those who have demonstrable challenges to engagement in care, retention in care, and adherence to treatment. It is also intended for those who are newly diagnosed or those with co-occurring conditions who may benefit from help coordinating care. This includes those who have not achieved viral load suppression, have been out of care or are new to care, new to antiretroviral treatment, co-infected with Hepatitis C or pregnant. Please be sure to call agency before visiting or directing clients to the program.

# Housing/Short Term Assistance

Housing/short term assistance services are payments used to secure or maintain stable housing. Assistance includes payments made directly to landlords and/or utility providers for rent, telephone service as well as moving expenses to secure and maintain stable housing. Housing/short term assistance services are temporary until the client or family is able to secure long term housing arrangements. Please be sure to call agency before visiting or directing clients to the program.

# Mental Health Services

Mental health services provide psychiatric treatment and counseling services to those with a diagnosed mental illness. Services are delivered following a psychosocial assessment and detailed treatment plan by a licensed or New York State authorized mental health professional (e.g. psychiatrists, psychologists, and licensed clinical social workers). Mental Health Services providers who are funded by the RWPA program also employ patient navigators to help client's access health and supportive services, maintain engagement in services, and support retention in care and adherence to treatment. Please be sure to call agency before visiting or directing clients to the program.
