# Introduction

The Ryan White HIV/AIDS Program (RWHAP) funds grants to states, cities, counties, and local community-based organizations to provide care and treatment services to people with HIV to improve health outcomes and reduce HIV transmission among hard-to-reach populations. The New York City Department of Health and Mental Hygiene (NYC DOHMH) is the Recipient of the RWHAP Part A grant. The HIV Care and Treatment Program (CTP) within the Bureau of Hepatitis, HIV, and Sexually Transmitted Infections (BHHS) is the designated Recipient in the New York Eligible Metropolitan Area (NY EMA) comprised of the five boroughs of NYC and the Lower Hudson Valley (Tri-County) region of Westchester, Rockland, and Putnam counties.

This directory is for service and health care providers seeking care, treatment, housing, and supportive services for people with HIV (PWH) as well as for PWH seeking services for themselves. The directory lists Ryan White Part A (RWPA) programs by service category providing location of services by borough, agency names, along with contact information.

To be eligible for RWPA funded services, clients must:

- Be HIV positive;
- Have a total household income at 500% of the federal poverty level (FPL)<sup>1,2</sup>, this is the same as the income eligibility guidelines for the New York State AIDS Drug Assistance Program (ADAP);
- Reside in the New York Eligible Metropolitan Areas (NY EMA) which includes the five boroughs of New York City and the Lower Hudson Valley of the Tri-County region of Westchester, Rockland, and Putnam counties.

To make a referral, please contact the program directly using the information provided in the directory (please call the agency before visiting or directing clients to the program). If you have questions about the directory, please reach out to the NYC RWPA Program at [rwta@health.nyc.gov](mailto:rwta@health.nyc.gov).

Sincerely,

HIV Care and Treatment Program  
Bureau of Hepatitis, HIV, and STIs  
New York City Department of Health and Mental Hygiene

## Services for PWH in New York City

### Care Coordination Services

Care Coordination is a medical case management program that supports retention in care by offering PWH home- and field-based patient navigation services, coordinated medical and social services, counseling and coaching in adherence to treatment, directly observed therapy (DOT) for treatment, and health education to build the skills and knowledge needed to maintain stable health. Care coordination services are intended for those who have demonstrable challenges with engagement in care, retention in care and adherence to treatment, as well as the newly diagnosed or those with co-occurring conditions who may benefit from help coordinating care.

## Early Intervention Services

Early Intervention Services (EIS) focus on the provision of outreach and HIV testing and referral services focusing on early diagnosis, engagement, linkage, and retention of newly diagnosed people with HIV (PWH) into primary care, thereby serving to improve CD4 count, suppress viral load, improve health outcomes, and reduce disease transmission, along with reengagement and retention of out-of-care PWH into primary care.

## Food & Nutrition Services

Food and nutrition programs provide food and meals as well as services designed to build clients' knowledge, skills, and independence around healthy eating and nutrition. Services include home-delivered meals, food pantries, congregate meals, vouchers to purchase food, and nutritional services, like supplements and counseling, that are delivered by a registered dietitian.

## Harm Reduction Services

The goals of the harm reduction program are to provide accessible harm reduction and substance use services, reduce the negative impact of alcohol and drug use, promote access to and maintenance in HIV primary care, and to improve adherence to treatment for HIV. Harm Reduction services are provided by credentialed counselors who address substance use problems through a range of strategies, including safer use, managed use, and abstinence while also recognizing and meeting the various psychosocial needs of PWH. Harm Reduction providers who are funded by the RWPA program also employ patient navigators to help clients access health and supportive services, maintain engagement in services, and support retention in care and adherence to treatment.

## Housing: Short-term Rental Assistance

Short-term rental assistance programs provide financial assistance and/or start-up costs, in the form of rent paid directly to landlords, to secure or maintain stable housing. Short-term rental assistance services are only available to PWH who are homeless or at serious risk of homelessness and who meet the medical and financial eligibility criteria for the HIV/AIDS Services Administration (HASA) program but who are otherwise not eligible due to administrative reasons.

## Mental Health Services

Mental health services provide psychiatric treatment and counseling services to those with a diagnosed mental illness. Services are delivered following a detailed treatment plan by a licensed mental health professional (e.g. psychiatrists, psychologists, and licensed clinical social workers) or authorized by New York State. Mental Health Services providers who are funded by the RWPA program also employ patient navigators to help clients access health and supportive services, maintain engagement in services and support retention in care and adherence to treatment.

## Outpatient Ambulatory Services

Outpatient Ambulatory Services (OAS) provides services for people who are 50 years of age and older with HIV. The OAS program uses a multi-disciplinary care coordination model that integrates care across several medical practices including, but not limited to, cardiovascular, neurological, geriatric disciplines. And health education and counseling services. In addition to medical care, the program adapts evidence-informed strategies to meet the non-clinical needs of people who are 50 years of age and older with HIV by adding a component of social and physical group activities.

## Psychosocial Support for Transgender, Intersex, Gender Non-Confirming and Non-Binary People

Psychosocial Support Services programs provide an array of counseling services to help Transgender, Intersex, Gender Non-Confirming, and Non-Binary (TIGNCNB) PWH cope with their diagnosis and psychosocial stressors. Providers have the flexibility to address barriers to care through a variety of strategies. Services include individual, group and family counseling, caregiver support, pastoral care, and biomedical counseling. Counselors may also refer clients to other health and support services and engage community health workers to facilitate access to services.

## Mental Health Services

Mental health services provide psychiatric treatment and counseling services to those with a diagnosed mental illness. Services are delivered following a detailed treatment plan by a licensed mental health professional (e.g. psychiatrists, psychologists, and licensed clinical social workers) or authorized by New York State. Mental Health Services providers who are funded by the RWPA program also employ patient navigators to help clients access health and supportive services, maintain engagement in services and support retention in care and adherence to treatment.
